INDEX

ABELSON, PHILIP H. *See* WILLIAM R. DURYEE, 225.

ABELSON, PHILIP H. Permeability of eggs of Arbacia punctulata to radioactive phosphorus, 203.

Abstracts of scientific papers presented at the Marine Biological Laboratory, summer of 1947, 189.

Abstracts of seminar papers presented at the Marine Biological Laboratory, summer of 1947, 213.

Acetylcholine at a phase boundary, production of a wave of negativity by, 222.

Adenosinetriphosphatase (ATP-ase) in the giant nerve fiber of the squid, 219.

Alkaline phosphatase activity in developmental stages of Arbacia, 209.

Alkaline phosphatase in the early development of Fundulus heteroclitus, 211.

Alkaline phosphatase activity in early development of amphibians, 215.

Alkaline phosphatase activity in oocytes of various marine invertebrates, 209.

ALLEN, MARY BELLE. Photosynthesis of Ulva, 203.

Alloxan, the production of diabetes in the toadfish with, 219.

ALSCHER, RUTH P. *See* CHARLES G. WILBER, 202.

Amoeba, period of quiescence in the response to light by, 45.

Amphibians, alkaline phosphatase activity in early development of, 215.

ANDERSON, RUPERT S. A delayed effect of X-rays on pepsin, 189.

Androgenetic males and X-ray induced cytoplasmic injury, 200.

Annelids, a comparative study of the lipids in, 99.

Annual report of the Marine Biological Laboratory, 1.

Ants, binary anterior ocelli in, 112.

Arbacia, alkaline phosphatase activity in developmental stages of, 209.

Arbacia egg cleavage by podophyllotoxin and related substances, 192.

Arbacia egg cleavage, retardation by dinoflagellate-contaminated sea water (red tide), 205.

Arbacia eggs, effect of dinitrocresol on oxygen consumption and cell division in artificially fertilized as compared with sperm fertilized, 196.

Arbacia eggs, on the relation between oxygen consumption, fertilization membrane formation and cell division in artificially fertilized, 195.

Arbacia ova, deformation delay in caffeine solution of, 191.

Arbacia punctulata, the distribution of phosphorus in the unfertilized egg of, 192.

Arbacia punctulata, permeability of eggs to radioactive phosphorus of, 203.

Attachment of barnacle cyprids, the effect of illumination and stage of tide on, 240.

Axoplasm of the giant nerve of the squid, shape of oil drops injected into, 191.

BALL, ERIC G. AND OCTAVIA COOPER. Chromoproteins in the tentacles of Physalia, 204.

BALL, ERIC G. AND OCTAVIA COOPER. On the occurrence of myoglobin in Busycon caniculatum, 189.

Barnacle cyprids, effect of illumination and stage of tide on the attachment of, 240.

BARNES, T. C. Production of a wave of negativity by acetylcholine at a phase boundary (model of the nerve impulse), 222.

BARRON, E. S. G. *See* A. K. PARPART AND T. DEY, 199.

BAYLOR, MARTHA BARNES. *See* ELIZABETH FOSTER, NORMAN A. MEINKOTH AND G. L. CLARK, 114.

BAYORS, WINIFRED M. *See* CHARLES G. WILBER, 99.

BEAZ, SILVIO. *See* ROBERT CHAMBERS, 226.

BERMAN, JACK. *See* ARNOLD LAZAROW, 219.

Bermuda sea urchins and their eggs, 217.

Binding ability of hemocyanin and serum albumin for organic ions, 218.

BISSELL, HAROLD B. *See* CLAUDE A. VILLE, 213.

BLOCH, R. Irreversible differentiation in certain plant cell lineages, 215.

BRACHET, J. Report on the Lalor Fellowship Research, 218.

BUCK, JOHN B. AND MARGARET L. KEISTER. Physiological studies on the mechanism of action of DDT in insects, 189.
BUNO, W. AND ROBERT CHAMBERS. Direct determination of internal hydrostatic pressure of Fundulus egg, 190.
BURBANCK, MADELINE P. *See* W. D. BURBANCK AND JOHN P. EDWARDS, 190.
BURBANCK, W. D., JOHN P. EDWARDS AND MADELINE P. BURBANCK. Toleration of lowered oxygen tension by cave and stream crayfish, 190.
Busycon caniculatum, occurrence of myoglobin in, 189.

CAFFEINE solutions, deformation delay in Arbacia ova centrifuged in, 191.
Cancer irroratus, the action of electrical stimulation and of certain drugs on cardiac nerves of the crab, 72.
Cardiac nerves, the action of electrical stimulation and of certain drugs on, 72.
Cardiographic studies on the heart of fish, 208.
Cation-permeable erythrocytes, preparation and properties of, 223.
Cell surface, behavior during cleavage of (VII), 139.
Cell surface, behavior during cleavage of (VIII), 163.
Cells under microscopic observation at room temperature, a method for subcooling, 226.
CHADWICK, LEIGH E. The respiratory quotient of Drosophila in flight, 299.
CHAMBERS, ROBERT. *See* W. BUNO, 190.
CHAMBERS, ROBERT. The shape of oil drops injected into the axoplasm of the giant nerve of the squid, 191.
CHAMBERS, ROBERT AND SILVIO BEAZ. A method for subcooling cells under microscopic observation at room temperature, 226.
CHASE, AURIN M. Effect of hydrogen ion concentration and of certain buffer systems upon the luminescent reaction of Cypridina luciferin and luciferase, 204.
CHENEY, RALPH HOLT. Deformation delay in Arbacia ova centrifuged in caffeine solutions, 191.
Chloride cells in the gill of Fundulus heteroclitus, phosphatase activity in, 224.
Chloride excreting cell (gill and the pseudobranch of Fundulus heteroclitus), the interrelation of, 222.
Chromoproteins in the tentacles of Physalia, 204.
Chromosomes and nucleoli in ovarian eggs of the salamander, effect of X-rays on, 206.
Chromosome number of Triturus torosus, 207.
CLAFF, C. LLOYD. Induced morphological changes in Tetrahymena vorax, 216.
CLARK, G. L. *See* ELIZABETH FOSTER, MARTHA BARNES BAYLOR AND NORMAN A. MEINKOTH, 114.
